

• FORUM ISSUES QUESTIONED

Forum restructuring debated

Teresa Piekarski Flyer Staff Writer

The debate is on; and it is clear that the sides are divided over whether or not to restructure the University Forum, in order to grant all particpants an equal voice and vote.

"The Forum years ago was really called the Faculty Forum and it was just all the faculty getting together. About fifteen years ago, that changed to include librarians and student service people. Also, probably before then, or at least by then, it also included six students," said Dr. Rebecca A. Emery, chair of the University Forum.

As it stands, the Forum consists of all faculty, some staff and six students. The assembly's main mission is to discuss and vote on issues concerning the University.

"There's been a tendency to add people to the Forum and, in so doing, we've obviously diluted the faculty voice in the sense that it's no longer a straight faculty decision," said Dr. David L. Parker, the Vice President of the Faculty Senate.

Two years ago, in order to provide a clear voice for the faculty, the Faculty Senate was created. With the establishment of the Senate, "It now appeared that there were three governing groups: the Student Government Association (SGA) for the students; the Staff Advisory Council (SAC) for the staff and the Faculty Senate for the faculty. So where does that leave the Forum?" asked Emery.

In response to that question, a committee was charged about two years ago by the SSU Forum to examine the body's present structure and consider ways to change and improve the existing

basically already had representation so we were looking to change the Forum in a way that would provide an opportunity for the groups to talk," Dr. George I. Whitehead III, chair of the Forum Restructuring Committee, said.

"With Forum restructuring, we are trying to develop a framework that will provide us with a system of communication. We hope such a system will allow all members of the SSU family - students, faculty, and staff - to both be informed regarding matters of importance to all three constituencies and to participate in the discussion of issues affecting several of those constituencies," said Provost Dr. Donald C. Cathcart.

The proposed structure for the new Forum is, as described by Whitehead, "an all inclusive overall umbrella organization."

First, the proposed Forum will no longer be a voting body. "Currently in the Forum, you have a vote if you are a member. In this new way that the Forum would be restructured, you can't vote because everyone would be a member," Emery said. "Part of the reason that was proposed by us was that if it is inclusive, the students, 6,000 strong, would overpower everybody," said Whitehead.

Although the new Forum would express sentiment, some current Forum members do not want to give up their individual votes. "There are people who are going to oppose it no matter what. They do not trust the Faculty Senate because they don't have a voice. They aren't senators. But, in the Forum, they always have a voice in the vote and they don't want to give that up," said Parker.

"Having a say and being listened to at the University has always

system. "Each of the constituencies been a struggle and I think we all want to be careful that we don't give up anything in the process of restructuring," added Emery.

Another issue, which goes back to when the Senate was first founded, is the question of where the committees should report. The people who wrote the original by-laws of the Senate proposed that a number of the Forum committees come under the Senate. There was a vote taken in the Forum and many of the committees were relinquished to the Senate. Some, however, remained in the

Student Organizations prepare to celebrate

Press Release Courtesy of OSAO

The Office of Student Activities & Organizations at Salisbury State University will present its 10th Annual Celebration of University Leadership 1999 Awards Show on Friday, April 23, 1999 at 7:00 p.m. in the Holloway Hall Auditorium.

This

recognizes ceremony outstanding student leaders, advisors and organizations for their contributions to the quality of life at SSU and in the Salisbury community. In addition to awards presented by registered student organizations, the Office of Student Activities & Organizations will present four major awards: Outstanding Community Service, Outstanding Student Organization Advisor, Outstanding Student Organization President and Outstanding Student Organization. The Office of Student

Activities and Organizations will also

recognize participants in their

prestigious

OPUN1UCRS1TY LEADERSHIP awards show 199

> For ten years, SSU has put together an awards show of this type. According to Anthony Butler and Jason Curtin, the two members of the Office of Student Activities and Organizations in charge of organizing this event, this ceremony is a way to reward the ongoing efforts made by the vast community of leadership at SSU. "It's great to see all these student leaders come together under one roof," said Butler. "Each year, the ceremony gets bigger and better, and this tenth anniversary year will be no exception,' Curtin said.

If you're looking to put a little ulture in your life, then there's no etter place to start than right here at SU. The next few weeks contain a usic. With everything from a French orn recital, to a full symphony rchestra program, to an ening of musical theatre, nere's something for

The music begins his Sunday, with this emester's first erformance from the Iniversity Chorale and hamber Choir. Both

oups have spent months rehearsing a ide range of musical styles. The ogram contains both traditional and ntemporary choral music, ranging om Mozart to Benjamin Britten to merican folk songs and spirituals.

semester's repertoire. "It's a fairly imbitious program. Each group is doing literature that is challenging and comprises a wide variety of styles. We're using an orchestra this time, as

well as an organ and an oboe for certain pieces. All of the soloists are students from the choirs," he said.

With such a varied program, lovers of both classical and modern music can hear something within their taste at this concert. Weber noted some iverse assortment of concerts and of the less traditional pieces in the ecitals sponsored by the department of repertoire. "Probably the most challenging for the chorale is the Hymn of St. Francis, because it uses a lot of contrasting moods and tonalities, so it's

a real representation of the power of the text. Also, Earth Songs has a different flavor to it; it's a little bit more New Age and can be very dramatic. For the choir, Three Lenten Poems of Richard Crashaw, by Daniel Pinkham, is challenging because of the

tonalities and harmonic language and really making the text come alive; that's our responsibility. Rejoice in the Lamb, by Britten, is just wonderful music all the way around. Then we do some more Michael Weber, conductor of traditional pieces, folk songs and oth choirs, noted the diversity of this spirituals, so that everybody has something that they will enjoy. It will stretch the listener and make them grow and also give them something that they can just sit back and listen to." he said.

Live a little... Dance a little... Smile a little...

by Kate Montero

Each generation is assigned a label by society. There have been the Jitterbug Kids, the Pedal Pushers, the Hippies, the Disco Dancers and Punk Rockers, among so many others. As society pushes itself beyond the norms of yesterday, breaking through the mold while creating new images and ideas, the 90s youth culture has been carelessly labeled as Generation X. But who exactly does this labeling? Is it the culture itself? Or is it the media, desperately trying to make a few bucks off a generation almost completely in tune with

themselves, but hopelessly misunderstood by passers-by? Somewhere, in the midst of all this madness, this young generation has by-passed cultural supervision to create its own niche, or label if you will. In an underground that is rapidly surfacing, this group can be called ravers...

Heart pumping, lights flashing, out of control, but somehow you are the creator.

Feel the motion, close your eyes, just go with it. Anything happens, this is your time, not theirs. Smiles and kisses, presents and love. Hold my hand. Tighter.

We are one body, one spirit, united under one cause. Lave. Peace. Music. This night. This feeling. This forever.

Such is the spirit of a rave. I had no idea what I was getting into. Sure, I'm all about freedom of expression - I'll be fine, I thought.

Going to my first real rave was an experience never to be forgotten, and if I could have looked into the future, a nervous butterfly never would have flown into my tummy.

Salisbury is not part of the big city mentality, in which raves have become accustomed to. This makes attending one the perfect excuse for a road trip. Everyone dresses in their own unique garb, wanting to stand out, but also wanting to stay comfortable during this all-night dance party. Glitter your face, paint your nails - it's all part of the experience.

Once inside.....simply speechless. Wanderful. People have came from all over to celebrate. It really is a celebration of life and love and music. It is amazing to see such a tremendous group of people, all of whom are different, get along as one being. No one lets these differences stand in the way of the moment. There was not one fight or even minor conflict.

It's about being one with yourself, and consequently understanding the nature of others. There is so much appreciation. When the DJ performs a good set, everyone is excited and applauds. When the lights get so intense that you feel your heart may burst, a feeling of ecstasy pulses through your body and you are alive.

The rave movement got its beginnings in England around 1987, but, if you think about it, the idea has been around since the start of recorded time. Native Americans rejoiced to beating drums, spiritually assessing themselves and their culture. It all comes down to freedom of expression and being, and the use of music to explicate and intensify.

Raves are often criticized for heavy drug use, but people don't realize that that's not what raves are about, or stand for. Until you experience a rave, you are not fully aware of what truly goes on, or the meaning behind it.

Live a little. Dance a little. Smile a little.

Unfortunately, raves are becoming a little too commercialized, slightly dampening the spirit that so radiantly stands behind them. Raves began in small, abandoned warehouse-like buildings, and that is where they should remain. With large clubs opening, raves are becoming too accessible, and, like everything else in this superficially expansive society, they are being taken for granted.

Just for one night, see what you are capable of. Don't let society do the labeling for you. Escape normality for a few hours to express what truly resides in the soul. Became a creation of the music, and became a creator of your own destiny.

rave vb 1 a: to talk irrationally in or as if in delirium b: to speak out wildly c: to talk with extreme enthusiasm 2 to move or advance violently

MUSIC from page 9

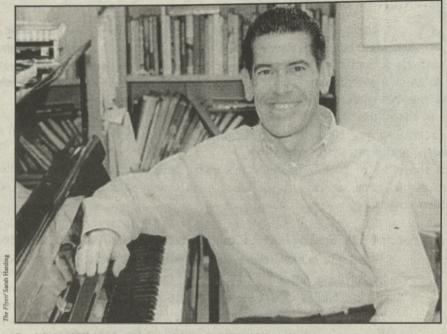

If unable to attend the first performance by the Chamber Choir and University Chorale, a second performance is scheduled for May 2 at 7 p.m. in St. Peter's Lutheran Church in Ocean City.

The next two programs on the schedule are senior recitals from two students that have been preparing for eight semesters. Marie Tom will give her senior voice recital on Apr. 30, and Kelley Moorman will be performing on the French horn on May 2.

Moorman commented on the involvement one takes in their final recital. "I'm very excited about my recital, because it's four years worth of work all crammed into an hour and 15 minutes. I think it's going to be really interesting because it has Classical, Romantic and Modern music in it. I think my favorite thing is the last piece on my recital, called Bickeries, which are unaccompanied horn duets. They're really modern and whimsical and fun to play. It's been a lot of fun, time and effort getting ready for it, but I think everybody's going to enjoy it." she said.

The SSU Wind Ensemble will give their semester concert on May 4. Conducted by Richard Johnson, this group will also be playing a wide assortment of musical styles. The select Chamber Winds group will be opening the program with two pieces, including Sept Dances d'apres le ballet, by Jean Francais, which consists of seven movements, all dances. The full Wind Ensemble will then be playing five pieces, some containing multi-movements, that represent a wide range of musical

Senior trombone player Eric Cheezum noted, "It's going to consist of a very West Side Story-esque piece by Roger Cichy called Divertimento for Winds and Percussion. It's demanding in terms of holding pitches that can be somewhat dissonant at times. The whole concert offers so many different styles. That Divertimento piece is very much a jazz, ragtime piece. We're doing one

Dr. Michael Weber is an integral part of the SSU Music Department.

Tony Hill: A class act on and off the SSU fields

Flyer Sports Writer

one of these multi-versatile athletes. Athlete of the Week for track and field. Hill started the year with a tremendous football season, and has since taken off

where he left off in high school, my success at SSU. You can't ask for Coming from Leonardtown, Maryland, much more than that." where he attended Chopticon High stardom to SSU, and has made a huge impact ever since.

ECAC, as a defensive back. Hill was to qualify for Nationals. also a pre-season All-American and the Defensive Player of the Year for the team. His accomplishments do not stop there, however. Hill was not only an outstanding defensive player, but an outstanding special teams player as well. He received honorable mention in the conference as a kick returner and was chosen as the Special Teams Player of the Year for SSU.

Almost all of his school records, for football, are as a kick returner. Hill holds the school records for longest kick return, the most kick returns for touchdowns in his career, and most kick returns for touchdowns in a season. He is also the only player in school history to score on offense. defense, and special teams.

During the football season, Hill was voted by the student body as Homecoming King. This proves that not only does he have incredible athletic ability, but the respect and admiration of

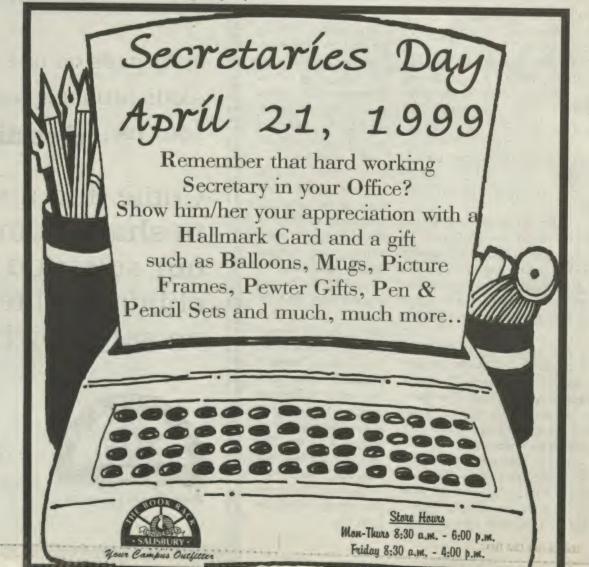

Hill's attention is currently focused on track and field. Last year, he set a school record in the triple jump, with 46' 6 3/4". This was a jump that initially qualified him for Nationals. However, another athlete edged him out. That experience has only served to make him strive harder this year. Hill said, "I would like to qualify for Nationals in the 200 meter dash, the triple jump, and the long jump. If possible, I would also like to qualify in the 100 meter dash and with the 4x100 relay team. However, I am

not greedy and would be happy with qualifying for just one event." These are not the only goals for Hill, though. He It is easy to find a person who would also like to break the school excels in one sport, but not very record in the long jump, which he is only common to find a person who excels in missing by five inches. During the week many sports. SSU senior Tony Hill is of Apr. 4, Hill was selected as the CAC

Hill will graduate in Dec. of 1999, but this is his last year of athletics. in his last year of SSU Track and Field. He would like "to thank the Lord, my Hill has picked up in college teammates, my family and friends for

Students, as well as coaches, School, Hill has brought his high school see Hill as not only a fine athlete, but a fine person as well. Sprinting coach, Billy Vaughn, said, "I think Tony is a Hill's last year of football was heck of an athlete, with God-given one that saw many accomplishments and ability. With the proper training, this broken records. He made the First ability could be brought out further." Team-All-Conference and Second Team Hill will have three more meets in order

Snapshots

Both SSU's men's and women's rugby teams are enjoying successful seasons. Get out to the fields and support these hardworking men and women.

"The Great One" Calls it quits

Special to The Flyer

THE FLYER APRIL 20, 1999

As the steel blades of Wayne Gretzky's skates graced the ice of Madison Square Garden one last time on Sunday, so ended the career of perhaps he finest player that ever wore an NFL

Born in Brantford, Ontario, in 1961, Gretzky began dominating the game of hockey at the age of three. His recent retirement saddens hockey fans everywhere, but his immense ontributions to the game will not be forgotten for as long as hockey is

Entering the NHL in 1979, the 18 year old Gretzky joined a powerful Edmonton Oilers roster. It did not take long for him to start making his presence felt, as Gretzky took the reigns of what would become one of hockey's greatest dynasties. Behind him, the Oilers won our Stanley Cups in the mid-eighties.

As far as league records went, Gretzky shattered over sixty. Some of the most memorable include, most goals,

In front of a capacity crowd at Madison Square Garden, Wayne Gretzky skated around

most assists, and most points (goals and assists combined) of all time, with 894, 1963, and 2857 respectively. Gretzky also notched up 212 points in the 1981-1982 season, an NHL first. Number 99 went on to achieve three more seasons of over 200 points. This record is regarded to be perhaps unbeatable by the hockey world, " a feat never to be repeated, claimed many. No other player, beside

ever come close to the 200-point standards, a

jersey number

99 ascends to the rafters of the hockey hall of fame, recollection of wonderful world of sports to bid a fond farewell to a true dominator of his game. Gretzky's i m m ortal nickname is one accuracy, as he truly will be remembered as "Great

MEAT'S TRACK

April 11: Salisbury's Brad Niper earned a first-place finish in the shot (48'8") and a second-place finish in the discus (142'1") at the Lynchburg Invitational. York's Tim Johnson won the hammer throw (152'8") at the Messiah Invitational, and in the process, established a new school, meet and track record. His throw was eight feet better than the school record and nine feet better than the meet record. Catholic's Matt Quinn had a solid meet at Messiah, as he tossed the hammer 143'1", the shot 45'4.25",

and the discus 133'3". Gallaudet's Gilles Naniwe was the top CAC finisher in the 800 meters (2:03.24) at the Messiah Invitational, Mary Washington's Brien Roberts

established a new school record in the 800 meters with a time of 1:55.01, while teammate Mike Privett set a new school record in the discus with a throw of 153'11" at

April 11: York's Katie Regar picked up a third-place finish in the discus (119'3") and fourth in the javelin (103'0") at the Messiah Invitational. Teammate Kristen Vibert also performed well, as she placed fourth in the shot (34'3") and sixth in the hammer (89'11"). Catholic's Kate Cassidy tossed the shot (35'3") and the hammer (130"7") which was a meet and field record. Gallaudet's Heather Lightfoot finished second in the discus (123'3"), third in the javelin (114'10") and fourth in the hammer (111'6"). At Lynchburg., Mary Washington's Kim Alvis set one individual school record in the 400 meters with a time of 58.47, and was a part of the school record-setting 400 relay (49.40) and the 1600 relay (4:06.15). Teammate Katrin Banks set a new school record in the discus with a toss of 123'8" and another record in the shot (40'10.5"). Fellow Eagle Kathleen Edwards set another school record in the long jump with a leap of
